TOWN OF EAST WINDSOR
Building Department

SWIMMING POOL REQUIREMENTS:

This list is not all-inclusive: please refer to pool packet.

- * A 48" barrier will be provided to protect the pool access. Including a temporary fence for inground pools prior to filling.
- * Access gates will be self-closing and self-latching (if less than 54" high they shall be on the pool side and be protected within 18" of release mechanism).
- * Doors providing direct access to the pool shall either have an alarm, a self-closing latching device 54" above the floor, or a safety cover over the pool.
- * No receptacles within 10' of pool. (Locking type receptacle for pool equipment must be at least 5' from pool and GFCI protected).
- * All metal parts of pool structure, fixed metal parts within 5' of pool, pump motors, etc., shall be bonded with a minimum #8 solid copper wire.
- * Convenience GFCI receptacle shall be provided between 10' and 20' from pool.
- * Trench depth for 20 AMP circuit to pool equipment shall be 18" minimum in conduit.
- * A surface pool alarm shall be installed pursuant to Public Act 99-140.
- * All swimming pool pumps must be equipped with a time clock
- * Heated pools require a pool cover unless over 20% of the heating energy is from non-depletable sources.

REQUIRED SWIMMING POOL INSPECTIONS:

The following is a list of inspections that need to be performed prior to the continuation of work. Requests for inspections can be made by calling the Building Department at 623-2439.

1. TRENCH AND BONDING – Electrical trench depth verification and bonding of pool and metal appurtenances including metal reinforcing for gunite pools.
2. FINAL ELECTRICAL – Location of equipment and GFCI protection. Convenience outlet provided.
3. FINAL – Swimming pool access protection must be provided before pool can be used.

Each swimming pool installation requires a Building and Electrical permit. Additional permits and inspections are required for pool decks.
